Jim Peyer has been an essential member of Tank Industry Consultants' field department since 1989. As Project Coordinator, Jim coordinates, supervises, and performs all types of TIC specialized tank evaluations. He is a member of Tank Industry Consultants' Certified Commercial Dive Team and performs underwater evaluations including dive evaluations for the US Navy at naval facilities around the world. Jim has also performed QP 5 Certified Inspections of coatings application at a number of US naval bases. As Project Coordinator, Jim is responsible for the following activities:

- Schedule Field Evaluations
- Purchase Field Supplies and Equipment
- Maintain Washout Equipment
- Understand Evaluation Requirements and Coordinate with Crews
- Verify Quality of Field Evaluation Information
- Assemble Field Evaluation Packages for Crew (directions, special instructions, etc.)
- Responsible for Quality of Field Work
- Maintenance TIC's Fleet of Vehicles
- Assess Needs and Purchase New Vehicles
- Calibration and/or Repair of Field Inspection Equipment
- Schedule First Anniversary Evaluations

Jim has more than 40 years' experience in welding and the fabrication and construction of steel products. He is trained in welding processes and is experienced in weld quality control.
