

Dare to Compare!

All turn key home pricing packages are NOT the same! When shopping for a new manufactured or modular home, ASK what's included in the turn key home pricing package you're quoted, then bring it to us and COMPARE our turn key package to theirs! We think you'll find our turn key prices offer you **MORE for LESS!**

How We Price Our Homes

Our homes are priced two different ways, based on the customer's needs:

1. Our Everyday Turn Key Price includes everything included in the manufacturer's base price of the home as well as what is needed to set up and deliver your home to its permanent location, minus any additional features or on-site options selected by the buyer. View the charts in this brochure to see what the **Everyday Turn Key Price** includes for both manufactured and modular homes.

2. Our Everyday Turn Key Price + Custom Options Selected by Buyer includes all the regular turn key set up and delivery features **PLUS** any additional options selected by the homeowner, such as the addition of well, septic system, on-site porches, stoops, decks, garages or other options **NOT** included with the base price of the home selected.

For the most accurate custom price, ask your sales associate about an **Estimated Cost Proposal**.
