

## Celebrating THE ARTIST

Aspire  
Indiana Health

**Amy's personal favorite part of serving has been working with the CAC annual art show of works by patients. "The Art Show gives consumers the opportunity to submit their own art and have it displayed. I feel like this is just one way where Aspire shows how they value their clients. And I feel like it gives a lot of undiscovered artists the chance to not only share their talents and perhaps step out of their comfort zones, but also to know that they are capable of doing important things."**

# CAC helps Aspire always keep patients first

The Aspire Indiana Consumer Advisory Committee (CAC) is now recruiting people to serve as new members. The CAC is composed of former and current Aspire clients who provide feedback and ideas on the company's policies and procedures to improve the patient experience.

Amy Graham has served on the committee since its inception and says it has "has a loud voice for Aspire's consumers."

"The CAC is a bridge between the employees and consumers. We have been able to offer advice on everything from the waiting room experience to hiring questions for Aspire employees," Graham says. "I think having an Advisory committee is important to Aspire because it offers a perspective that might otherwise not be seen."

Darrell Osborne has also been a member of CAC since the very start, and was the immediate past chairman.

"Aspire has so many programs available that if people have a need, we very possibly are going to have staff to help them with that. And that's exciting," he says.

He points to a recent example of advising Aspire leadership on the implementation of a new phone system for its Contact Center, which receives all incoming requests for appointments and questions. As patients, the CAC members could point out problem areas they've encountered themselves and offer potential solutions.

"They listened to our real-life experiences. That's the beauty of what we're doing. We're the ones receiving the services and treatment," Osborne says. "I know, as a former business owner, it's easy to lose track of the people we're serving. And the committee can tell Aspire how we feel."

Anyone interested in volunteering for CAC can contact Trusa Grosso at [trusa.grosso@aspireindiana.org](mailto:trusa.grosso@aspireindiana.org) or (317) 587-0546.

**Heather Smith**  
discusses what  
brought her to be a  
Care Coordinator/  
Life Skills Instructor in  
Aspire's Deaf Services  
department for the  
last six years.

## **What is your job title and role at Aspire? How long have you worked here?**

I work as a Care Coordinator/Life Skills Instructor for the Deaf Services. I have worked at Aspire for 6 years. It will be 7 years in August.

## **Tell me about your professional background — previous jobs/industries, etc.**

After I graduated from Gallaudet University, I moved to South Carolina to work as a behavior specialist and worked at the school as a long term substitute teacher. My husband and I decided to move to Indiana for a better opportunity so I worked at Indiana School for the Deaf with elementary students as a residential mentor. My experiences lead me to work at Aspire after I worked at a few places.

## **Why do you think having a Deaf Services unit is so important for Aspire?**

I think it is very important to have Deaf Services at Aspire because we are a minority group and we struggle with many things. Most of our clients are having a lot of language barriers. We have our staff that is able to access their language needs to work with their mental health so they can be stable.

## **Please list any educational degrees or certifications you hold.**

I have B.S. Degree in Family and Child Studies from Gallaudet University in Washington, DC. It is the only deaf university in the United States of America. :)

## **What do you most look forward to about your job?**

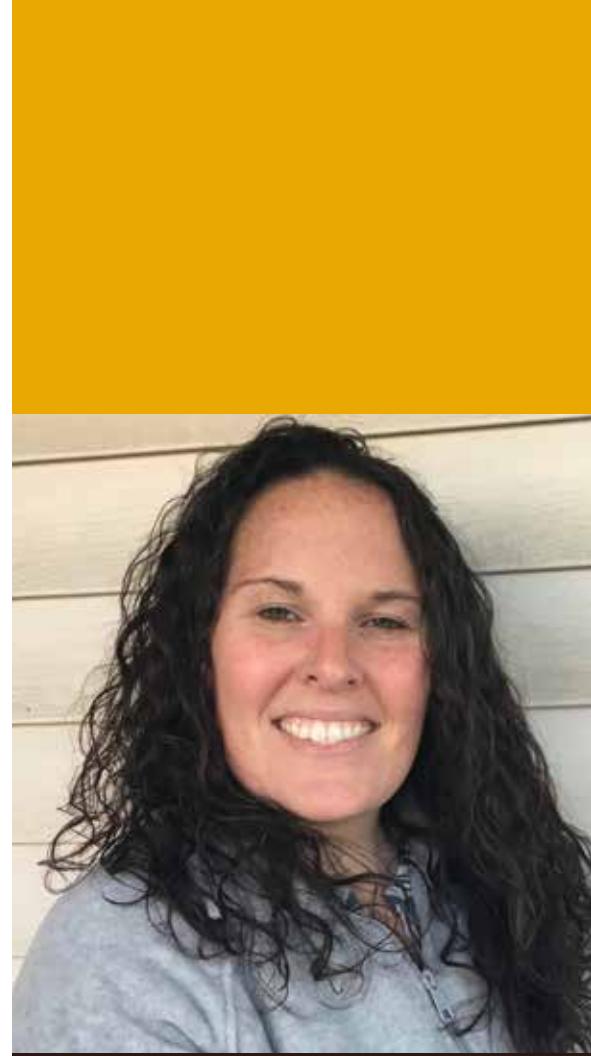

I always look forward to working with my clients to make their day!

## **Is there any particular success story that sustains you?**

I do have one success story about one of my clients. My client used to be so scared to get out of his apartment. He would just stay in his apartment all day. I worked with him so hard to use his coping skills and learn how to use it when he faces people in the community. Now, he is enjoying himself in the community!

## **Anything personal you feel comfortable sharing — family, hobbies, sports, things you're passionate about, life-changing experiences, community involvement/volunteerism, etc.**

I always enjoy spending time with my husband, my daughter and my dog! I will share one thing about myself, I used to be a very shy person and always nervous to start new things. It is just that I decided to move away for college and learned about myself better. After those experiences, I have more confidence in myself for my future! ■■■

- ▶ Jenna Wagoner, SDoH South Support Associate, Willowbrook
- ▶ Kirstyn Wehsollek, Outpatient Office Coordinator, DeHaven

## **Aspire debuts free Naloxone boxes in Anderson, Elwood**

Aspire Indiana Health has installed a [NaloxBox](#) at its health centers in Anderson and Elwood to help combat the scourge of opioid overdoses, which is currently the leading cause of death among adults 50 years old and younger in the United States — surpassing even COVID.

Each box is stocked with Naloxone, also known as Narcan, which is shown to block the effects of opioids and help save the life of someone experiencing an overdose. The NaloxBox also includes instructions and referral information for substance use disorder treatment. This is a free community resource available 24/7 and each box is restocked regularly.

Anyone who wants to obtain a free Naloxone kit can do so anytime, without an appointment or identifying themselves. The boxes are mounted on the exterior wall near the patient entrances at:

- ▶ 2009 Brown St., Anderson
- ▶ 10731 SR 13 in Elwood

Please spread the word about this important service that's saving lives!
